## SURGICAL PATHOLOGY REPORT - COI

Patient Name: [REDACTED]  
Address: [REDACTED]  
Gender: F  
DOB: [REDACTED]

Service: Inside/Outside  
Location: [REDACTED]  
MRN: [REDACTED]  
Hospital #: [REDACTED]  
Patient Type: [REDACTED]

Accession #: [REDACTED]  
Received: [REDACTED]  
Reported: [REDACTED]

Physician(s): [REDACTED] M.D.

### DIAGNOSIS

UTERUS, CERVIX, BIOPSY

- SQUAMOUS CELL CARCINOMA, POORLY DIFFERENTIATED

By this signature, I attest that the above diagnosis is based upon my personal examination of the slides (and/or other material indicated in the diagnosis).

M.D.

\*\*\*Report Electronically Reviewed and Signed Out By

.D.\*\*\*

### Microscopic Description and Comment

I agree with [REDACTED] that the cervical biopsy shows a poorly differentiated squamous cell carcinoma. The tumor invades fibrotic, focally calcified stroma. There is focal necrosis.

### History

The patient is a [REDACTED] year old woman.

### Material(s) Received

Submitted by [REDACTED] for review is 1 slide labeled [REDACTED] accompanied by a corresponding pathology report. The material originates from [REDACTED] (1)
