ICD-O-3
Carcinoma, squamous cell
NOS 8070.3
Site Buccal mucosa
C06.0
Jan 9/24/13

Collect date:

PATHOLOGY REPORT:

PRIMARY SITE: Buccal mucosa

- "Margin of the inferior alveolar nerve":
 - . Uninvolved by neoplasia.
- "Level IIB - Right":
 - . Absence of neoplastic involvement in two lymph nodes identified (0/2).
 - . Skeletal muscle tissue uninvolved by neoplasia.
- "Level IIA - Right":
 - . Metastatic squamous cell carcinoma involving 1 of 8 (1/8) lymph nodes identified, without capsular involvement.
- "Level III - Right":
 - . Three lymph nodes were dissected, all uninvolved by neoplasia (0/3).
- "Level IB - Right":
 - . One lymph node was dissected, uninvolved by neoplasia (0/1).
- "Right inferior alveolar nerve":
 - . Uninvolved by neoplasia.
- "Retromolar area and right palatine tonsil":
 - . Moderately differentiated squamous cell carcinoma, ulcerated, infiltrating until the muscle skeletal tissue.
 - . Lymphatic invasion: present.
 - . Perineural invasion: not identified.
 - . Surgical margins uninvolved by neoplasia.

Note:

Osseous tissue in decalcification.

Addendum:

- . The neoplasia infiltrates by contiguity the osseous tissue.
- . Osseous tissue margin uninvolved by neoplasia.
