\*\* For cases prior to [REDACTED] the section "SPECIMEN" may have been added. \*\*

#### SUPPLEMENTAL REPORT

RECD: [REDACTED] PATH: [REDACTED] DOB: [REDACTED]  
FINAL DATE: [REDACTED]  
CONSULTANT: [REDACTED] TO: [REDACTED]  
PHOTO: NO  
DX COMPLETED: [REDACTED]

CLINIC COPY TO:  
[REDACTED]

#### SUPPLEMENTAL REPORT

##### DIAGNOSIS :

(A) RESECTION OF FIBULOGRAFT, LEFT PARTIAL GLOSSECTOMY:  
INVASIVE WELL DIFFERENTIATED SQUAMOUS CARCINOMA INVOLVING FOCALLY  
FIBULOGRAFT. (SEE COMMENT)

Bone margins of resection free of tumor.

COMMENT: This supplemental report is being issued to give the results of  
sections submitted for decalcification.

SECTION CODE: A16, A17, representative sections of graft (fibula); A18,  
perpendicular right margin of resection inked in black; A19-A23, left margin  
of resection inked in red, perpendicular sections. [REDACTED]

##### DIAGNOSIS

(A) RESECTION OF FIBULOGRAFT, LEFT PARTIAL GLOSSECTOMY:  
INVASIVE WELL DIFFERENTIATED SQUAMOUS CARCINOMA INVOLVING TONGUE AND  
FLOOR OF MOUTH. (SEE COMMENT)  
CARCINOMA EXTENDING FOCALLY TO THE LEFT ANTEROLATERAL FLOOR OF MOUTH  
MUCOSAL Margin OF RESECTION. (SEE COMMENT)  
Other margins of resection free of tumor.  
Sections of bone pending decalcification. Supplemental report to  
follow.

(B) TEETH:  
Multiple teeth and fragments of teeth, gross diagnosis only.

##### COMMENT

The tumor (3.0 x 3.0 x 2.3 cm) involves the anterior base of tongue  
and adjacent floor of mouth. Tumor extends focally to the inked left lateral  
anterior mucosal margin of resection. Perineural invasion is present. No  
unequivocal lymphatic/vascular invasion is present.

##### SPECIMEN

(A) RESECTION OF FIBULOGRAFT, LEFT PARTIAL GLOSSECTOMY:  
(B) TEETH:
