

## Surgical Pathology Report

Patient Name: [REDACTED]  
Med. Rec. #: [REDACTED]  
DOB: [REDACTED]  
Gender: F  
Physician(s): [REDACTED]  
cc: [REDACTED]

Client: [REDACTED]  
Location: [REDACTED]

Accession #: [REDACTED]  
Taken:  
Received:  
Reported:

History/Clinical Dx: Vaginal bleeding, breast cancer, family history of cancer

Postoperative Dx: Same, pending pathology examination

ICD-0-3 not applicable.

### Specimen(s) Received:

Uterus, cervix, tubes and ovaries

Normal path from a non-cancer patient.

ju 11/11

### DIAGNOSIS:

Uterus, cervix, tubes and ovaries:

Cervix: Chronic cervicitis  
Endometrium: Poorly developed secretory endometrium  
Myometrium: Intramural leiomyoma and adenomyosis  
Right ovary: Ovarian tissue with physiologic changes  
Right tube: Unremarkable  
Left ovary: Ovarian tissue with physiologic changes  
Left tube: Unremarkable

### Gross Description

Received:	Formalin is a single piece of unoriented, previously opened soft tan to pink tissue
Labeled:	"cervix, uterus, bilateral ovaries and tubes"
Weight:	168 gm
Size	
Uterus:	10.4 x 7.7 x 4.9 cm
Right ovary:	2.5 x 1.6 x 0.8 cm
Left ovary:	2.6 x 1.6 x 1.5 cm
Appearance	
Serosal surface:	Smooth with ragged areas, no subserosal bulging
Cervix:	Grossly unremarkable
Endometrium:	0.2 cm in thickness, smooth, shiny, tan with no papillary or thickened areas grossly identified
Myometrium:	2.2 cm in thickness. Possible area of adenomyosis, 2.0 x 1.4 x 0.5 cm.
Right tube and ovary:	The tube measures 6.1 x 0.5 x 0.5 cm and is grossly unremarkable, with no paratubal cystic structures grossly identified. The ovary shows a white homogenous cut surface, with no cystic structures grossly identified.

#### Disclaimer Statement:

This laboratory statement may be reproduced by any of the copyright holders, except for internal use. This report was developed and its performance has been evaluated under contract by the U.S. Food and Drug Administration. The FDA has determined that such claims as "approved for clinical use" or "not an adulterated drug product" do not in itself imply acceptance. It should not be regarded as the final judgment of the manufacturer. This laboratory is accredited under the Clinical Laboratory Accreditation Program of the CDC, which is qualified to perform high complexity waived laboratory testing.

**Surgical Pathology Report**

Left tube and ovary: (inked blue) The tube measures 4.2 x 0.5 x 0.5 cm, and is grossly unremarkable with no paratubal cystic structures grossly identified. The ovary shows a white, homogenous cut surface with no cystic structures grossly identified.

Myomas

Number:

1

Size:

0.3 x 0.3 x 0.3 cm.

Appearance:

Well-circumscribed, white with a whorled cut surface

Other:

There is an apparent intrauterine device, measuring 3.7 x 2.6 x 0.2 cm.

Key to cassettes:

- |      |  |
|------|--|
| 1 -  | Cervix   |
| 2 -  | Lower uterine segment, full thickness          |
| 3-5- | Endomyometrium                                 |
| 6 -  | Myoma  |
| 7 -  | Areas of possible adenomyosis                  |
| 8 -  | Right and left adnexa (left adnexa inked blue) |

**Microscopic Description**

The microscopic findings support the above diagnoses.
